SCAPE

La giornata di studi vuole approfondire alcuni aspetti centrali della produzione albertiana con particolare riferimento Tempio riminese e riferimento Tempio

L'ARCHITETTURA DI CASA 28 È UN'ESTENSIONE DEL PAESAGGIO RIGOGLIOSO DEL CERRADO, LA SAVANA TROPICALE

La geologia dell'Italia è molto complessa. L'assetto fisiografico e geologico attuale dell'area comprensiva della penisola italiana, delle sue isole e dei bacini marini adiacenti, è il risultato di numerosi eventi geodinamici successivi riconducibili, in estrema sintesi, all'interazione tra due placche biosferiche, la placca africana e quella europea a partire dal Cretaceo superiore, periodo nel quale iniziò la progressiva chiusura del paleo-oceano della Tetide. Il margine meridionale africano, frammentandosi durante l'avvicinamento al continente settentrionale europeo, ha originato una serie di microplacche interposte la cui successiva accrezione ha dato luogo nel corso del Cenozoico all'attuale territorio peninsulare e siciliano. In questo assetto si riconoscono due domini paleogeografici fondamentali, separati dalla linea Insubrica (Alpi centrali): nazionale, testimoniano il complesso

Un dominio europeo, dato dal margine meridionale della placca europea, che include il blocco sardo-corso e parte del mar Tirreno, l'arco Calabro-Peloritano, il bacino del Mediterraneo occidentale, il sistema di falde alpine a vergenza europea, costituite principalmente da rocce metamorfiche e intrusioni di batoliti che testimoniano il regime di compressione derivato dal movimento della placca africana verso nord e dalla collisione con la placca continentale europea; nazionale, testimoniano il complesso assetto geodinamico ancora attivo, un dominio africano (in senso lato) costituito

dall'insieme del Dominio Sudalpino e dei domini adriatico e apulo, che rappresentano l'insieme di microplacche accrezionate appartenenti al margine del continente meridionale.

Il Dominio Sudalpino è formato da un sistema di falde a vergenza adriatica, costituite principalmente da sequenze carbonatiche e in parte che si prolungano a est nelle Dinaridi. Nella catena appenninica, la linea tettonica "Ancona-Anzio" separa l'Appennino settentrionale, principalmente costituito da flysch terrigeni, dall'Appennino meridionale ove le formazioni carbonatiche sono più frequenti. L'assetto strutturale appenninico è caratterizzato nel suo insieme da un sistema di falde che sovrascorre sull'avamposto apulo. Questo sistema di falde, che costituisce la parte affiorante della placca adriatica, si estende dal mar Ionio fino all'estremità occidentale della val Padana e rappresentava in origine una sorta di "promontorio" settentrionale della placca africana. L'avamposto apulo (costituito sostanzialmente dal territorio pugliese), rappresenta un dominio di piattaforma carbonatica stabile, persistente dal Mesozoico al Miocene e successivamente emerso, coinvolto solo marginalmente nell'orogenesi appenninica. La Sicilia è formata nella parte centro-orientale da rocce carbonatiche e siliciclastiche appartenenti al margine convergente africano deformato ("unità magliebidi"), mentre nella sua parte nord-orientale (Monti Peloritani) è di

The Delhi High Court has granted divorce to a man 29 years after he became estranged from his wife, stating that the wife's letter telling him she wanted to divorce him and had found another man to marry falls within the definition of cruelty.

According to a news daily, the high court took the view that the husband would have suffered 'acute mental agony by the letter'. This, in spite of the fact that the woman in 1995 admitted the letter didn't contain a grain of truth and was only meant to 'jolt the husband out of his complacency'.The Delhi High Court has granted divorce to a man 29 years after he became estranged from his wife, stating that the wife's letter telling him she wanted to divorce him and had found another man to marry falls within the definition of cruelty.The Delhi High Court has granted divorce to a man 29 years after

Contrary to popular belief, Lorem Ipsum is not simply random text. It has roots in a piece of classical Latin literature from 45 BC, making it over 2000 years old. Richard McClintock, a Latin professor at Hampden-Sydney College in Virginia, looked up one of the more obscure Latin words, consectetur, from a Lorem Ipsum passage, and going through the cites of the word in classical literature, discovered the undoubtable source. Lorem Ipsum comes from sections 1.10.32 and 1.10.33 of "de Finibus Bonorum et Malorum" (The Extremes of Good and Evil) by Cicero, written in 45 BC. This book is a treatise on the theory of ethics, very popular during the Renaissance. The first line of Lorem Ipsum, "Lorem ipsum dolor sit amet..", comes from a line in section 1.10.32.

The standard chunk of Lorem Ipsum used since the 1500s is reproduced below for those interested. Sections 1.10.32 and 1.10.33 from "de Finibus Bonorum et Malorum" by Cicero are also reproduced in their exact original form, accompanied by English versions from the 1914 translation by H. Rackham. EXPERIENCE

- MAC Cosmetics, Graphic Design Intern, New York, NY;**
Worked on print team
Design items for MAC Star Trek events
Gather swiipe for photoshoots
Storyboard for MAC 200 lipstick colors
- BYU Athletics Design, Graphic Designer, Provo, UT;**
Execute various designs for posters, t-shirts, social media, event programs, and GIFs.
Manage multiple projects at one time
Work in a team with open feedback and discussion
Created sports schedule cards that had over 500 copies.
Assisted at basketball photo shoots and guided players to create good poses
- BYUI Comm Dept., Lab Assistant/Tutor, Rexburg, ID;**
Help students with the technical aspects of Adobe Programs.
Help students learn the design principles and think critically.
Guided students with HTML and CSS and have one-on-one appointments with students.
Maintain lab and make sure equipment isn't damaged.
- Renee Judkins Wedding Invites, Assistant Printer, LV, NV;**
Gather stock for printing and organize various stock.
Organize orders and file them for use.
Send packages to clients.
Prep PSD documents for printing

EDUCATION

- Brigham Young University | BFA Graphic Design; GPA: 3.77
Brigham Young University- Idaho | A.A.S in Web Design & Development, Rexburg, ID; GPA: 3.78
- TECHNICAL SKILLS**
- InDesign, Illustrator, Photoshop, After Effects, Lightroom, Sketch, HTML5, CSS3, Java, WordPress, Word & Powerpoint
